Gujarat Agricultural University Research Journal

January, 1991
Vol. 16 (2)

CONTENTS

Dry matter accumulation pattern and yield of wheat (*Triticum aestivum* L.) as influenced by weed control methods and nitrogen levels.
S. S. Bainade and Z. G. Patel 1

Effect of irrigation in relation to nitrogen on the fodder production of oats.
J. R. Patel and P. C. Patel 5

Effects of principal and inadvertently applied nutrients through different fertilizer carriers on the yield and nutrient uptake by groundnut.
J. V. Polara and M. S. Patel 10

Heterosis in durum wheat.
V. P. Chovatia and B. S. Jadon 16

Genotype X environment interaction for grain yield in sorghum.
R. H. Patel, K. B. Desai, M. S. Desai and N. D. Modi 21

Induced variability in groundnut in M_2 generation.
G. M. Ramani and B. S. Jadon 23

Studies on physico chemical characters of coconut (*Cocos nucifera* L.) Cv. "Dwarf Green" under coastal Gujarat conditions.
K. V. Kalathiya and N. L. Sen 27

Monocrotophos residues in/on okra fruits.
r. c. jhala and a. h. shah 32

Aldicarb residues in pointed gourd (*Trichosanthes dioica* Roxberg) and its soil.
R. C. Jhala, A. H. Shah and C. B. Patel 38

Editorial Board

Dr. K. Janakiraman (Chairman)
Dr. A. P. Vyas
Dr. A. H. Shah
Dr. B. G. Jaisani
Dr. J. M. Dave
Dr. J. C. Patel
Dr. P. K. Singh
Dr. M. S. Patel
Dr. K. G. Mehta
Dr. B. S. Chundawat
Dr. M. Parmeswaran
Dr. D. G. Vala
Shri B. N. Trivedi (Member Secretary)
